PROJECTS | To view more, **click here**

StyleVerse : E-Commerce Platform | MERN Stack, Stripe   **live**

- Designed a dynamic e-commerce platform delivering the latest trends in fashion with a seamless user experience.Customers can add items to their cart, apply coupon codes for discounts, and complete payments via **Stripe**.
- The **Admin panel** enables sellers to manage products, feature items, delete listings, and track analytics, including total sales, revenue, customer count, and a dynamic 7-day sales graph.

ChitChat : RealTime Chatting Platform | MERN Stack, WebSockets   **live**

- Designed a platform for real-time communication, enabling seamless one-to-one and group interactions
- Real-time chatting via **WebSockets**, emphasizing instant interactions.Additional functionalities like sharing **photos** and **files**, and the ability to search for new users and form groups, demonstrating advanced features beyond basic messaging.

live

RealEstate : Property Buy-Sell Platform | React, Leaflet, SCSS

- Designed a user-friendly interface for buying or renting real estate properties, including flats, houses, mansions, condos, and apartments.
- The platform allows users to view property photos and explore locations on an interactive **React Leaflet** map, enhancing the browsing experience. Users can also message landlords directly for inquiries and additional details.
